

BRUNO CORRAO

Software Developer, Argentina.

SUMMARY

Curious software developer with a lifelong learner's mindset. Proficient in MERN stack, adept at crafting and deploying dynamic front and back-end web applications. Committed to delivering innovative solutions through an understanding of software development principles and emerging technologies.

EXPERIENCE

Xtract, Buenos Aires, AR — Automation Developer

November 2023 — Present

- Developed algorithms and regular expressions to automate the analysis of business documents.
- Conducted testing to enhance the speed and efficiency of file processing, ensuring timely delivery of results.
- Implemented JavaScript and Python in Google AppScripts to automate data processing, ensuring alignment with client requirements.
- Study, testing, and utilization of API to guarantee successful development of integrations solutions for external systems such as ERPs.

100Devs, Los Angeles, CA — Software Developer

December 2021 — November 2023

- Collaborated with a team to design and build modern and responsive web applications tailored for small and medium-sized businesses.
- Developed full-stack web applications using the MERN Stack ensuring optimal functionality.
- Conducted CRO analysis using GA and Hotjar to observe user behaviors and strategically optimize landing pages.
- Executed regular code reviews, and pair programming sessions multiple times per week to maintain optimal code quality.

LATEST PROJECT:

GenFa

genfa.vercel.app

Full-stack web application to create, record and download invoices as PDFs.

- Database analysis & design using MongoDB & Mongoose.
- Backend architecture development built with Node.js & Express.js.
- Integration of front and backend.
- Development of React components.
- Utilization of Bootstrap for UX/UI styling.
